

CAPABILITY STATEMENT

CYBER SECURITY

Our information security team has a multifaceted background in Government, Defence and commercial security domains. This experience, coupled with an operational focus, allows us to understand the delicate balance between system security and system functionality, establishing the most comprehensive and user-focused security solutions possible.

ASSESSMENT AND AUDIT

- IRAP Assessment
- Essential Eight Gap Analysis and Maturity Model Assessment
- ISO27001 Internal Audit
- CMMC Level One and Level Two Gap Analysis
- IRAP and DISP Cyber Readiness Assessments

GOVERNANCE RISK AND COMPLIANCE

- Threat Modeling and Risk Assessment
- Third-party and supply chain risk assessment
- Development of system specific security documentation
- SME guidance during Certification and Accreditation (C&A)
- Ongoing support after C&A submission

SECURITY ARCHITECTURE AND ENGINEERING

- Design of security controls for cloud and on-premises
- Assessment of technical security control effectiveness
- Implementation and remediation of security controls
- Development of audit and test plans

MANAGED SERVICES

- IT Security Officer-as-a-service
- Disaster Recovery and Incident Response exercise and testing
- Workforce development and training

WHY PAC?

- We deliver end-to-end support based on the user experience, working with our clients to solve their unique problems
- We understand the delicate balance of operational necessity and regulatory controls, going above and beyond to support our clients throughout the process
- We empower our partners with the knowledge to ensure success
