

TRAINING AND SIMULATION

Training Systems Fidelity Management

DESCRIPTION OF SERVICES

- Fidelity Management and documentation development
- Test & Evaluation, Verification & Validation and Acceptance Testing
- Requirements Definition and Capability development
- Simulation Needs Analysis and Learning Outcomes assessment
- Simulator Evaluation and Assessment
- Methods of Simulation training courses

CHALLENGE

How do you ensure your training system meets the needs of your students' defined Learning Outcomes?

SOLUTION

Our Training and Simulation team can help you develop and implement a robust Fidelity Management Program to ensure maximum use and integrity of your training system and minimise the chances of negative training for your students.

TRAINING AND SIMULATION

Advanced Training Environments

DESCRIPTION OF SERVICES

- Distributed Mission Training and Live, Virtual & Constructive systems integration
- Network Administration and Simulator technical support
- Library and Data Management
- Cyberworthiness & Information Systems Assessment and Accreditation support
- Concept of Operations development

CHALLENGE

To provide a training environment that connects training audiences from different platforms and geographical areas to enable small teams, collective and Joint Force training outcomes.

SOLUTION

Supporting training networks and technologies that enable Advanced Training Environments is something that the PAC team understand and is passionate about. Our Training and Simulation specialists can provide you with expert advice on operational concepts, network design, data and security requirements to ensure 'fair-fight' outcomes for all participants.

TRAINING AND SIMULATION

Maintenance and Technical Services

DESCRIPTION OF SERVICES

- Device Installation, Relocation and Commissioning
- Maintenance and In-country OEM Support agents
- Systems and Integration Engineering
- Requirements Capture and development
- Test & Evaluation and Acceptance Testing
- Certification and Accreditation

CHALLENGE

How can I maximise the life of our training device?

SOLUTION

Easy! Establishing the right maintenance and sustainment program for your training system will enable you to deliver effective and efficient training programs for your students. Our team of Training and Simulation specialists can help you install, maintain and upgrade your device – all in a vendor-agnostic approach.
